

CHOICE OF COMPUTER LANGUAGE TO MEET
EDUCATIONAL NEEDS IN COMPUTER SCIENCE

Chaired by:

Patricia Woodworth, Ithaca College

Ada as the Language of Choice for Computer Science Education

Philip W. Brashear, Eastern Kentucky University

The Case for C

Allan Tucker, Colgate University

Computations: An Introduction to Engineering Design

Gerald J. Sussman, Massachusetts Institute of Technology

Modula-2 - A Better Language for Computer Science Education

Hoyt D. Warner, Western New England College

This session will look at several specific computer languages - Ada, C, Lisp, and Modular 2 - to consider how, where, and why they belong in a Computer Science curriculum.
