

EXAMPLES OF OBJECT-ORIENTED PROGRAMS

PANEL DISCUSSION

Moderator:

*Pat Woodworth
Math/Computer Science Department
Ithaca College
Ithaca NY 14850*

Discussants:

*Richard Epstein
Math/Computer Science Department
West Chester University of PA
West Chester, PA 19383*

*Rick Mercer
Computer Science Department
Penn State Univ. - Berks Campus
P.O. Box 7009
Reading, PA 19610*

*William Mariasoosai
Math/Computer Science Department
St. John Fisher College
Rochester, NY 14609*

*Mohammadi Mohammad
Computer Science Department
SUNY, College at Oswego
Oswego, NY 13126*

Many of us are incorporating or planning to incorporate the object-oriented paradigm into our Computer Science curricula. Among the many implementation details we must then consider are the types of programs to use for examples and exercises. The purpose of this panel session is to share specific examples of object-oriented programs in Turbo Pascal or C++ that have been used within various courses. Each of the panelists will present several examples of programs and time will be available for you to contribute to the discussion by presenting other examples or commenting on the ones presented by others.
